**Re: Carstab Corporation (Morton International, Inc.) On-Site Assessment
OHD 000724138**

Dear Mr. Schaff:

PRC Environmental Management, Inc. (PRC), has been retained by U.S. Environmental Protection Agency (EPA) Region 5, under Contract No. 68-W8-0084, to evaluate candidate sites for the National Priorities List (NPL) under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) and the Superfund Amendments and Reauthorization Act (SARA). PRC is conducting these site assessments under the supervision of Ms. Jeanne Griffin, Work Assignment Manager -- EPA Region 5.

Information supplied to EPA through CERCLA notifications, as required by Section 103(c) of CERCLA, has identified the Carstab Corporation (Morton International, Inc.) site as a possible candidate for the NPL. As part of the evaluation, EPA has requested that PRC perform an on-site assessment. A follow-up visit may be scheduled in the near future to conduct sampling activities. Photographs will be taken during both visits to document site conditions and activities.

PRC has completed a preliminary records search for available information; however, during the on-site assessment we request that you be available to answer any additional questions to assure that all information is complete and accurate. Access to any relevant maps, diagrams, hydrogeological reports, environmental assessment reports, sampling data sheets, environmental permits (air, NPDES), manifests, and correspondence is also necessary to complete the site assessment.

Guy D. Montfort and Gabriel Rood of PRC will participate in the site visit. A representative from the Ohio Environmental Protection Agency (OEPA) will also be invited to participate in this visit.

If you require additional information please call me at (513) 241-0149.

Sincerely,

A handwritten signature in cursive script that reads "Guy D. Montfort".

Guy D. Montfort
Geologist
